

The road and parking lot resurface project in back of school has created a temporary parking and student pickup nightmare. We will not be allowed to drive around or park in back of school by the bandroom until the school opens the area. Until then, to reduce the grid-lock and for Student safety, please do not park and wait for pick-up on the section of road between the gym and the back parking lot by the football stadium entrance. We would suggest that you have the students you are picking up meet you in the back parking lot or better yet, pick them up in the circle in front of the gym entrance.

We would appreciate everyone's assistance with this request.
